

Tech Support

by Boomtown Network, Inc.

On-Demand Tech Support For Local Businesses

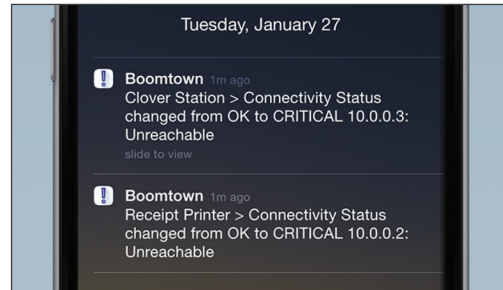

Boomtown monitors your IT network for free 24/7. We alert you when devices go down and get you back online quickly so you never lose a sale.

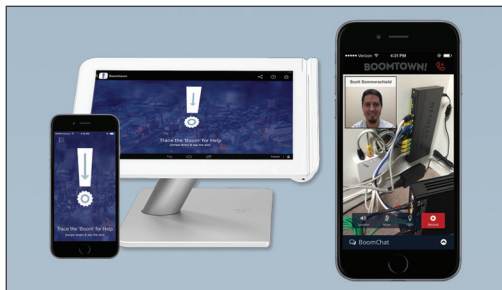

Boomtown lets you know when any device in your store (wifi, printers, POS, etc.) goes down. If you experience an issue, tap one button in the app and you will immediately connect to a qualified technician who will help fix your problem. You also get access to an on-demand network of experienced local technicians that can travel to your store when needed.

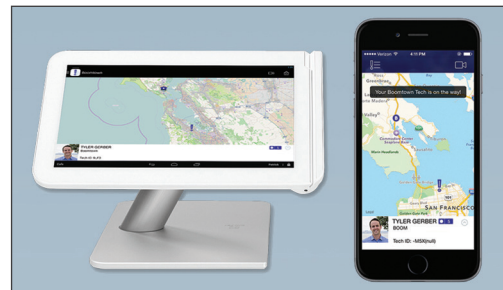

Boomtown proactively monitors all devices in your store 24 hours a day

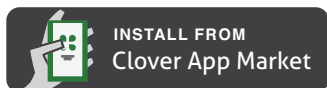

Receive an alert when any device goes down to be sure that you never miss a sale

Immediately connect to an experienced technician over video to troubleshoot your issues in real time

If something can't be fixed over the app, a local technician can drive to your store and fix it in person
