- Search Engines
- Email Marketing

Make Local Marketing Simple, Effective and Affordable – Social Media, Search, Directories, Email Newsletters, Websites – All In One Easy App.

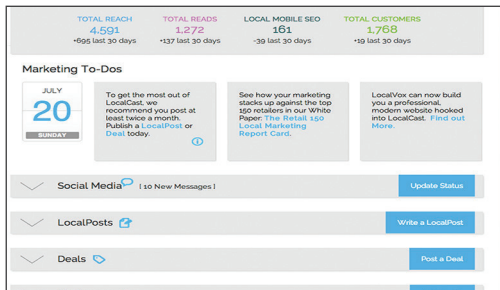

With LocalCast, you can publish your events, announcements and promotions to every local marketing outlet – your website, Facebook, Twitter, directories like Yelp and Foursquare, email newsletters, local publishers and more – all with the push of a single button. See all your marketing metrics in one place and get award-winning customer service.

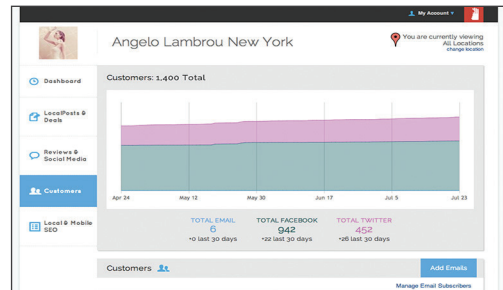

LocalCast monitors what people are saying about you on social media like Facebook and Twitter and review sites like Yelp and Citysearch

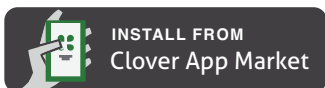

LocalCast monitors how your website, content and directories are ranking for the keywords that matter to you on Google and Google Maps

LocalCast analyzes your marketing and makes recommendations on what to do next

LocalCast monitors the growth of the customer community you can reach on Facebook, Twitter and email
